- Uses UV germicidal light, carbon, and high efficiency filtration

## UV-500C PORTABLE MODEL

- Uses UV germicidal light, carbon, and high efficiency filtration
- Quiet fan with three speed control
- Purifies air in areas up to 500 square feet
- Circuit board monitors lamp and filter life
- Visible lamp and filter replacement alerts
- Plugs into any standard 120V outlet

## Protect Against Unexpected Costs With Our Annual Safety Tune Up and Tank-Sure Program

Given the current economic challenges, we have been looking for ways to help protect our customers from unexpected costs. We are highly recommending that all of our customers enroll in our TankSure® Program when scheduling your Annual Safety Tune-Up. Our TankSure® Program enables us to evaluate the safety and integrity of your above ground oil tank. This is important for you and your investment in your home. Benefits of this program and our tune-up include the following:

### Annual Safety Tune-Up

- **Save up to 10% on heating costs**
- **Protects and prolongs the life time of this expensive equipment**
- **Helps avoid breakdowns**
- **We service ALL Brands**

### THE TankSure® PROGRAM

- **\$1,000 Tank Replacement Payment**
- **An Annual Tank Test Using an EPA Approved Testing Technology**
- **Proactive oil tank replacement eliminates worry and costly clean-up**

To qualify for the The TankSure® Program your tank must not be in need of immediate replacement. Approximately 95% of all tanks will qualify. The TankSure® Program, which only costs \$25.00 per year, is a service that we highly recommend all of our customers participate in. Your oil tank contains hundreds of gallons of fuel and it should be tested annually. To schedule your Annual Safety Tune-Up and TankSure® please call our office at (607) 687-1803.

We truly appreciate your business and we look forward to bringing you exceptional home comfort and peace of mind for years to come. So don't delay, give us a call today. You'll be glad you did.

**NOW  
IS THE TIME  
TO CALL**

News and Information for Our Valued Clients • Spring, 2010

## Terry Ward is Recipient of the Betty Jane Smith Award

Congratulations to Terry Ward! He is the latest recipient of the Betty Jane Smith Memorial Award for Outstanding Client Service.

Terry has been recognized to receive this award by votes from his peers for his help with continuing the Smith family tradition of providing the type of outstanding client service that Betty Smith was famous for.

Terry Ward has been with Scott Smith & Son seven years this February. He has been working in every facet of our industry for over twenty one years. He is fully trained in every aspect of our burner service and fuel delivery departments.

His wife, Kim, is the Civil Manager at the Tioga County Sheriff's Department. Terry and Kim reside in

Newark Valley. Their daughter Tiffany recently graduated from Cortland State University, and was married in September 2009 to Luke Henson of Newark Valley. Their other daughter, Casey, is a senior at SUNY Delhi, majoring in Restaurant Management.

Terry and Kim attend church at New Life Ministries in Endicott, where Terry is a leader in the Men's Ministry and Kim is a leader in the Women's Ministry.

When Terry gets free time, he is an avid deer hunter and fisherman. He is also a very gifted wood worker. He loves to finish carpentry, and to build all types of wooden furniture.

When Terry pulls in to deliver propane to your home, please extend him hearty congratulations.

## PROPANE EXCEPTIONAL ENERGY®

Propane is a very safe fuel. But as with any energy source, there are steps you should take to further ensure your safety. If you detect a gas leak, or smell of gas, here are the steps to follow:

### 1. NO FLAMES OR SPARKS!

Immediately put out all smoking materials and other open flames. Do not operate lights, appliances, telephones, or cell phones. Flames or sparks from these sources can trigger an explosion or a fire.

### 2. LEAVE THE AREA IMMEDIATELY!

Get everyone out of the building or area where you suspect gas is leaking.

### 3. SHUT OFF THE GAS.

Turn off the main gas supply valve on your propane tank if it is safe to do so. To close the valve, turn it to the right (clockwise).

### 4. REPORT THE LEAK.

From a neighbor's home or other nearby building away from the gas leak, call us at 607-687-1803 right away. If you can't reach us immediately, call 911 or your local fire department.

5. DO NOT RETURN TO THE BUILDING OR AREA until our technician or a safety official determines that it is safe to do so.

6. GET YOUR SYSTEM CHECKED. Before you attempt to use any of your propane appliances, a qualified service technician must check your entire system to ensure that it is leak-free.

### TAKE THE SNIFF TEST

Call us and we will mail you a propane odor scratch and sniff sample. We recommend that you have everyone in your family take the sniff test.
